**LOCKHEED MARTIN**

+

## ELIGIBILITY

- United States citizen, eligible to obtain a security clearance
- Full-time undergraduate student at a NY Space Grant Institution
- Electrical/computer engineering or computer science major, completing junior year by summer 2018 (high-achieving freshmen or sophomores will also be considered)
- Minimum GPA: 3.2 (on a 4.0 scale)
- Interest in RF communications and/or digital design is desirable, but not required

## DETAILS

A student team will engage in a multidisciplinary project, experiencing the entire design lifecycle including proposal, concept definition, prototyping, preliminary design, detailed design, test, and delivery. \$7,000 will be provided to each selected intern for this 10-week, full-time internship at Lockheed Martin's facility in Owego, NY.
